After some interrogation, it seems the caller was exaggerating and in fact, the 18wheeler was following the bus too close. There was no physical contact between the two vehicles. The caller is not the operator of the bus but is behind the 18-wheeler. He states the 18-wheeler is white/white w/green lettering. Possible reg 04095/unk state. Trailer number L887. 61-1 enroute to Rte202. Belchertown & C-7 given the BOLO as well. Unable to find the plate as given in the RMV. 61-1 reports unfounded.
